GLOBAL HUMANITY BILL OF RIGHTS

We are the peoples of Planet Earth. We recognize the interconnectivity of all of Creation as One. We believe the gifts of Renewable Natural Resources to be Nature’s Blueprint for Sustainability, and our own. Therefore, we believe Earth’s Inhabitants are to mirror Natural Design by conducting our lives responsibly in the service of Universal Good and Prosperity for all Life.

United, we consciously create an increasingly enlightened world through dynamic love-based collaboration. We honor individual inborn Freedoms, Rights, and Sovereignty. We affirm the inherent equality of all Beings by ensuring everyone is informed of the Natural Law of One. We cultivate sustainability and utilize all Resources for benevolent purposes. Transcending boundaries, we support cultural and geographic diversity toward a peaceful global community and beyond.

We believe every individual is vital and has purpose. To collectively thrive, priority shall be given to cooperative access to essential shelter, food, water, healthcare, and education as human rights.

ARTICLE I

The right of the people to basic SHELTER in exchange for service to the degree of an individual’s ability.

ARTICLE II

The right of the people to nutritious FOOD in exchange for service to the degree of an individual’s ability.

ARTICLE III

The right of the people to clean WATER in exchange for service to the degree of an individual’s ability.

ARTICLE IV

The right of the people to quality HEALTHCARE in exchange for service to the degree of an individual’s ability.

ARTICLE V

The right of the people to a complete EDUCATION in exchange for service to the degree of an individual’s ability.
